

SHERMAN ARRIVED AT MANILA TODAY ADDRESS TO NATIVES OF PHILIPPINES MADE KNOWN.

Assures Population of the Intention of the United States to Develop the Power of Self Government in the People and Administer Their Own Affairs.

Manila, March 22.—[Special]—The transport Sherman, having on board the Third Infantry and four companies of the Seventeenth arrived here today. The Sherman left New York, February 3.

Address to Natives of Philippines. New York, March 22.—[Special]—The Evening Journal's Manila dispatch announces that the address to the natives of the Philippines, drafted by the American commissioners, was made public.

It assures the population of the Philippines of the intention of the United States to develop the powers of self government in the people.

The people are assured the president's sole wish is to establish a system of government such as will render the natives capable of administering their own affairs under American control.

The protection of the United States is not to be exercised in any spirit of tyranny and vengeance.

Having destroyed the Spanish power and accepted sovereignty in the island, the United States is bound to restore peace in the Philippines. To this end all the insurgents are invited to lay down their arms and place trust in the government that emancipated them from the oppression of Spanish rule.

Reason of Suspension of Fighting.

Manila, March 22.—[Special]—All is quiet here today. The suspension of fighting by the Americans since the withdrawal of Wheaton's brigade from the territory between Laguna de Bay is only a preliminary to a more general culminating campaign against the insurgents. The troops today are being shifted about and there are indications that a concerted advance against the Filipino army north of the city will be made within the next forty-eight hours.

Washington, March 22.—[Special]—The supply steamer Solace arrived at Manila this morning.

Aguinaldo to Take Command.

Manila, March 22.—[Special]—A captured Filipino soldier says that Aguinaldo will take personal command of the reserve forces at Malolos and has announced that he will march into Manila in twenty days. The Twenty-Second regulars of Oregon and the Minnesota Volunteers have been concentrated on the beach to await orders for transportation northward.

An Aggressive Movement.

Washington, March 22.—[Special]—The authorities expect Otis to begin an aggressive movement which is designed to end the Philippine rebellion very soon. Only a brief time will be allowed the followers of Aguinaldo to accept the proposition made in proclamation issued by the Philippine commission.

Iloilo, March 22.—A scare is reported in the island of Negros. Upward of sixty Spanish refugee planters have arrived at Iloilo and state that a native tribe 2,000 strong, living on the Montecos river, twenty miles south of Bacolod, threaten to destroy the haciendas and crops. They have a few firearms, but are mostly equipped with spears and bows. The Spaniards requested arms from Gen. Miller to defend themselves and their property.

There is no change in the situation here. The wounded men are recovering. Manila, March 22.—Reports of fighting in the island of Negros, without any particulars, have reached Manila. The transport Indiana is leaving now for Negros with one battalion of the First California regiment, under Col. Dubose.

Washington, March 22.—The war department has received the following: "Manila, March 21, 1899.—Adjutant General, Washington: Transports Ohio and Senator left 20th. Grant delayed for necessary repairs; starts 25th; carries all sick and wounded necessary to ship. Cannot commence shipment of volunteers at present. Hope to do so soon. Ship additional battalion California to Negros this afternoon."

This dispatch of Gen. Otis is very gratifying to the war department officials, as it means that all the sick and wounded soldiers in the Philippines will be sent home at once. The transport Grant, which will leave last, is admirably equipped for the service.

It has been decided by the department to have the transport met at San Francisco by officers, who will pay off the soldiers, give them their discharges and send them to their homes with transportation paid. Their services will end when they reach the United States.

Those who are unfit for travel will be sent to the hospital until they are in condition to stand the home journey.

SENATE TACKLES ANTI-PASS BILL REFUSED TO ACCEPT ASSEMBLY AMENDMENT

Adding Forfeiture of Office Clause—Four Bills For Taxation of Express, Sleeping Car, Fast Freight and Equipment Companies Pass—Bill Prohibiting Proxies.

Madison, March 22.—[Special]—The senate refused to accept the assembly amendment to the anti-pass resolution, adding the forfeiture of office penalty, by a vote of twenty-five to eight.

Four bills for taxation of express, sleeping car, fast freight and equipment companies passed without discussion.

The senate also passed bills prohibiting proxies in political conventions, amended to authorize alternates to vote; and providing that in legislative caucuses for nomination of United States senators, each member shall vote viva voce upon roll call.

The medical bill requiring old as well as new physicians to be registered, went to its third reading.

The assembly killed the Dodge bill, prohibiting saloons within one mile of the Milwaukee Soldiers' Home.

Chief Clerk Newell read a statement of business showing that of 523 assembly bills 265 have been reported; 109 passed and 123 killed.

Speaker Ray urged more prompt action on the bills.

The anti-pass bill was laid over.

Madison, Wis., March 22.—The caucus of republican senators Monday night bore fruit yesterday in the passage of the anti-pass bill by the assembly by a unanimous vote. To-day the anti-pass amendment to the constitution will come up in the senate, and that body, in accordance with agreement, will refuse to concur in the forfeiture of office clause inserted by the assembly. Then the whole question will go to a committee of conference, where the party leaders will try to smooth out the wrinkles and draft some measure which shall meet the popular demand and fulfill the party platform pledge.

The four committee bills for the taxation of sleeping car, express, freight line and railway-equipment companies passed to third reading in the senate Tuesday without debate. They are party measures, and are practically certain to become laws. They greatly increase the taxes of these corporations.

SAW HOT SPRINGS MURDER

Dennis Hayes, Well Known Local Contractor Was Uncomfortably Near

Dennis Hayes, the well known Janesville contractor, who is now at Hot Springs, Arkansas, for the benefit of his health, was an eye witness there at the time of the shooting affray last week in which five men were killed. At the time Mr. Hayes was walking near the spot where the trouble took place, and took refuge to get away from bullets.

In a letter to local friends, he says that when the trouble first broke out he was within less than thirty feet when the men opened fire and soon bullets commenced to fly in all directions.

The trouble was between the sheriff and his deputies and the chief of police and his men over politics.

SHERMAN NOT DEAD

Feeling of Relief at Washington That Report Was False—Mrs. Sherman Was Not Told.

Washington, D. C., March 22.—[Special]—There is a feeling of relief here now that the report of Sherman's death was false. It now transpires that the president's secretary took the precaution of holding back the notices of Sherman's alleged death which was prepared for representatives. Mrs. Sherman was never told of the report of her husband's death. She does not even know he is sick.

Santiago, March 22.—[Special]—Sherman spent a fairly comfortable night. He is still weak, but temper and pulse are nearly normal.

SOME INTERESTING TESTIMONY TODAY

BEEF BOARD OF INQUIRY AT CHICAGO.

Beef Boy at the Hotel Morrison Testified That He Accompanied a Guest to Packing Houses—Burned Some Sort of Concoction in Car Filled With Beef.

Chicago, March 22.—[Special]—The beef board of inquiry heard some interesting testimony here today.

David Fleishman, a beef boy at the Hotel Morrison, testified that he accompanied a guest of the hotel to the packing houses some time ago and saw his companion burn some sort of concoction in a car filled with beef. He did not know the strange man's name, but the latter told him he was experimenting with a meat preservative.

Dr. Murdoch, of the Chicago health department, testified that he examined some beef in which he found chemicals.

Chicago, March 22.—Dr. Nicholas Senn was the principal witness at the beef inquiry board last evening. The session lasted only half an hour. The only other witness was Lieut. Col. Corliss, United States army, who was wounded in both shoulders in the battle of Santiago.

Dr. Senn testified that while he did not make any regular analysis of the canned beef to discover its actual proportion of nutriment, he had come to the conclusion that the canned beef furnished to the troops in Cuba and elsewhere was unsuitable, that is, inadequate for the reason that the so-called "canned roast beef" was not roast beef at all, but boiled beef, and that consequently it was lacking, through the process of boiling, and the carrying off in the water of essential nutritious ingredients, in these latter materials. The canned roast beef as furnished to the troops was tasteless and insipid, and lacking in strengthening properties.

Lieut. Col. Corliss said that from what he had heard from those about him the eating of the canned roast beef had caused sickness, generally in the way of bowel complaints. The soldiers did eat it, but they did it at the protest of the stomach.

About Amber.

Although amber is not a precious stone, or anything of the sort, it is nevertheless a precious material, one full of picturesque interest and very beautiful to boot. Most of the amber of the world has been found thrown up on the shores of the Baltic sea, and is supposed to be the residuum of old and huge forests of a period before civilization of the world began. A little is found in this country, a little in England, a little in the far Orient, a little of it is mined and the fossil trees, whose gum it was, are still in evidence in the strata with the gum exuding from them, but the most of the world's amber comes from the Prussian coast.

A Diminutive Pair of Shears.

Shears no bigger than a pin form one of the exhibits of the skill of a Sheffield workman. A dozen of these shears weigh less than half a grain, or about the weight of a postage stamp. They are as perfectly made as shears of ordinary size.

THIS CITY NOT MENTIONED

No Steps Likely To Be Taken Here Towards Securing Picnic.

It is generally conceded by Woodmen, members of the Northern Illinois and Southern Wisconsin Picnic association, that the picnic of that organization next year will go to Freeport if that city wants it. The Freeport Woodmen have been passive members of the organization for some time, because of a slight misunderstanding which they have had with the other members, and if they want the picnic they shall have it.

Elgin, with its several hundred Woodmen, is after the picnic, too, and they will make a hard struggle for the plum if nothing happens to dissuade them from their purpose.

As to the date of the picnic this year at Beloit, it is thought that June 1, Thursday, will be the day set at the convention. That will bring it about the same time it was last year and will be satisfactory to all.

SEARCH THE RUINS

Another Body Taken From Windsor Hotel Ruins—Many Valuables Are Being Found.

New York, March 22.—[Special]—Another body was taken from the Windsor hotel ruins this morning. It was a headless and limbless trunk. The identified now numbers ten. Bones now at the morgue are believed to represent seven bodies. The list missing now reduced to thirty five. An unidentified dead number seven. It is supposed twenty-eight bodies are in the ruins. Many valuables are being found.

New York, March 22.—Three more bodies were found in the ruins of the Windsor hotel Tuesday. This makes five recovered by the searchers so far. Like the two found on the preceding day, the three were so badly burned as to render identification almost impossible.

Of the 212 registered guests at the hotel only nine remain unaccounted for, and of 274 employees only nineteen. There were a few guests and visitors who were not registered who are missing, and there are ten identified bodies. The first of the bodies found is apparently that of a man. The head and limbs are missing. A number of bones were found near by, which are believed to have belonged to this body.

The second body taken from the ruins is that of a woman. The head is crushed in and almost severed from the body. The arms and legs are badly crushed. Straps of clothing remain on the body.

Parts of a third body, supposed to be that of T. A. Barrett of London, a guest of the hotel, were found at 10 o'clock in the forenoon on the Fifth avenue side. A portion of the trunk was found first. Bones which undoubtedly belonged to the body were found near by, also a bag, the contents of which made it reasonably certain that the body is that of Mr. Barrett.

The discovery of almost a bushel and a half of bones in other parts of the ruins is an indication of what the search from now on is going to reveal. The police and the officials of the building department agree that the chances are that not a dozen bodies that can be recognized as such will be found. Bones and other fragments, they say, will be dug up by the basketful, but to whom they belong will never be known.

A Partial Judge's Partial List.

During the year 1888 Judge Lynch tried, sentenced and executed 131 prisoners. This list, which does not include book agents or lightning rod men, shows an alarming activity on the part of that speedy jurist, and it is to be hoped he will give the other courts a better show this year.—Law Notes.

## OSHKOSH OFFICERS ARREST FIVE SUSPECTS.

Thought to Have Robbed Houses in Neenah—Trial of Mrs. Sharp Begun at Fond du Lac This Morning—Another Case of Smallpox at Appleton—State News.

Oshkosh, Wis., March 22.—The police have captured the gang that has been robbing residences in this city, Neenah, Menasha and Appleton and have recovered much of the stolen property. Those under arrest are Frank Wheeler, Walter Hansen, Bessie Schoenauer, Maggie Smith and Mrs. Holmes. They occupied rooms on Main street, where much of the plunder was found. In the list are many articles of jewelry, silverware, watches and silks. Most of the property taken from the O'Heir residence on New York avenue has been identified. Some of the clothing taken from that place was found at a dress-making establishment where it was being cut up into cuffs and other articles of wearing apparel. Mrs. O'Heir's wedding dress was recovered intact but a satin waist was cut to pieces.

Some of the articles have been identified as belonging to Appleton people. In the list is a new "Clipper" bicycle numbered 26,800. It is believed this was stolen from Neenah. Jewelry, which appears to have been stolen from a store, includes bracelets, cuff buttons and bangles. Two watches, a silver and a gold one, were found on Wheeler's person, besides several dynamite cartridges. This leads to the supposition that he was on his way to some northern city to ply his vocation of housebreaking and safebreaking.

A large amount of the silverware stolen from former Senator Sawyer's house was found, packed in a gripsack in a second-hand store.

## REV. WHITING HEARD FROM

Reads with Delight the Home Gathering Report.

As the many friends of Dr. Lyman Whiting will be interested in hearing from him, The Gazette publishes extracts from a recent letter:

Sunny Bank Manse, East Charlemont, Mass., March 6, 1899.—Our Dear Mr. and Mrs. Eldred:—Your kind remembrance by a copy of The Janesville Gazette of February 9, 1899, giving a detailed account of the annual home-gathering at the Congregational church, was a joy today for it assured us that you are yet in the flesh, in Janesville, and that our names have not fallen from your memories. It is no slight thing to us to get even a paper from the loved old parish, for our alarm had begun to come, as to what's happened to us among the friends there, of former days? Not a word except your message from there since our visit in June last, so a sight of your names gave an unusual joy. We thank you for the token. Then the narration of that church meeting of Feb. 8th made the glad blood tingle in the old veins, and which never gets chilled toward any interest in that church. The love of thirty years ago had a kind of freshness in it, that keeps it tenderly afresh. Was it not, then, a new meeting house, organ, minister, and a generally new first state of things.

There was a glow and gladness about the new church days that I had never known elsewhere. It holds on until now on my part, but of course on that, if any, of few others. But what a day of grand reportings you had of it \* \* \*

\* \* \* 'Tis a glimpse of Beulah-land, at least to me, to read that account.

This has been a winter of desperation, such storm and wind and ways unpathed, who ever saw?

In the autumn I was so ill as to alarm those about me. The hand Divine, and my "blessed Josephine" have brought me up from low estate.

I am quite well for four score and almost two, but I feel the frailty of the thread and know it cannot long abide. Next Autumn ten years of service here will end, and I am pressed with the thought shall I cease from labor then? \* \* \* A newly written sermon is each week's happy task, and never indeed more so.

We send love and thanks for this token of remembrance, and pray for the Savior's love to you.

## TOO MANY STAMPS ARE BEING USED

## WAR REVENUE TAX IMPOSED IS COMPLICATED.

Janesville Business Men Are Often at a Loss to Understand Just How Many Stamps Are Needed—Thousands of Dollars Derived in Rock County By War Taxation.

The war revenue stamp tax imposed by an act of congress passed June 13, 1898, is a complicated and voluminous affair and business men are often at a loss to understand just how to stamp their mortgages and bonds and notes secured by mortgages in order to fully comply with the law. Oftentimes they place an insufficient number of stamps upon their legal documents and more often they overstamp their papers that they may feel assured of having met the demands of Uncle Sam by properly assisting in overcoming the enormous expenditures of the government in the recent war with Spain.

Revenue stamp collectors every week receive a pamphlet from the office of the secretary of the treasury department at Washington and these contain treasury decisions which explain the several portions of the war revenue act and clearly define the construction to be given the various clauses. Collector Van Kaas, of Oshkosh, says that in several instances in that city where persons have executed a bond and secured the same with a mortgage, both papers have been stamped. Only one revenue stamp is required in such transactions as has been specified in act of congress, approved Feb. 28, 1899, amending schedule A of the war revenue act. The amendment to the original act is as follows: "Whenever any bond or note shall be secured by a mortgage or deed of trust, but one stamp shall be required to be placed upon such papers: Provided that the stamp tax placed thereon shall be the highest rate required for said instruments or either of them."

It will be seen by the above amendment that when a bond is executed by a private person, and it is secured by a mortgage, that the tax is fifty cents on the bond. Also, it is evident, according to the tax on mortgages, that there is no tax accruing on a mortgage if the sum secured does not exceed \$1,000. The tax on a mortgage securing a sum exceeding \$1,000 and not exceeding \$1,200 is twenty-five cents. Therefore, in any case where a mortgage and bond are given by a private person for a sum not exceeding \$1,500, the greater tax would accrue on the bond, and under the above amendment the bond should be stamped. After the secured sum of \$1,500 is exceeded and the excess is not greater than \$2,000, the taxation on the bond and on the mortgage is equal, being fifty cents on each instrument. Whenever the tax is equal, it is the ruling in the office of the treasury that the mortgage should be stamped and not the bond.

Business men who have been in the dark on this point can save worry and expense by following the ruling of the department, under the amendment.

I have been afflicted with rheumatism for fourteen years and nothing seemed to give any relief. I was able to be around all the time, but constantly suffering. I had tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did, and was immediately relieved and in a short time cured. I am happy to say that it has not since returned.—Josh. Edgar, Germantown, Cal. For sale by Peoples' Drug Co.

## THE YOUNG MEN ENTERTAIN

Male Members of Epworth League Give Entertainment.

The young men of Court Street Epworth League entertained a number of their friends last evening. The earlier portion of the evening was devoted to a musical and literary program, Boyd Nott acting as master of ceremonies.

There were three humorous readings that were liberally applauded: "A Yankee in Love," by Jabez Isaac; "Editing on Agricultural Paper," by Ralph Bonesteel; and "Railroad Crossing," by Fred Isaac. A piano solo by Harley Fitch was greatly appreciated, and a violin solo by J. W. McLellan was so pleasing that an encore was called for, but Mr. McLellan declined. Frank Smith played the piano accompaniment. An instrumental trio, consisting of Harley Fitch, piano, Oscar Servatius, violin, and Harry North, cornet, played two selections, both of which were encored. The program was entirely by young men, who also had charge of the serving of coffee and sandwiches. Games were indulged in and all present had a most enjoyable time.

## SIGNIFICANT ANNOUNCEMENT

Appearance of Otis Skinner at Myers Grand Saturday Evening.

The most significant announcement that has been made during the current dramatic season is the appearance of Otis Skinner and his company at Myers Grand Saturday evening in Carson and Parker's comedy, "Rosemary." This is unquestionably the most important play Mr. Skinner has ever presented to his admirers in this city as it has achieved an unusual triumph at the Criterion Theatre, London, and at the Empire Theatre, New York.

The original Empire theatre production is being used by Mr. Skinner for his tour, and, in the leading part, that of Sir Jasper Thorndyke, he has a character even more attractive than his fascinating creation of Prince Rudolf, which charmed our theatre-goers last season. The cast enlists the services of a large number of metropolitan favorites. Mr. Skinner's great popularity here insures an enthusiastic reception of a crowded house.

## PRaise THE CHIEF'S METHOD

Fond du Lac Police Profit By Local Officers' Rule.

The Fond du Lac Commonwealth of yesterday says:

At Janesville the police have decided to arrest all persons who make it a policy of "holding up" politicians near election time. They have been in the habit of making threats that they will defeat candidates if they are not paid money. The other day Chief Hogan arrested such a party and he was given two months' sentence in the county jail. The Ting-a-lings is a similar organization in this city. At present their president and secretary, "Casey" Stanton is behind the bars but other members are left to do the same thing. Chief Schaefer will follow the same course here and he should have the support of the justices in placing them behind the bars for a time sufficient to keep them from repeating the practice at the spring election.

## HE HEALS BY MAGIC.

THIS MAN CURES CHILDREN WITH A STRING.

Strange Power Attributed to Mayor James B. Plessinger, of Bluffton, Indiana—Quaint German Folk-Lore Superstition Successfully Practiced.

If the strange power attributed to Mayor James B. Plessinger of Bluffton, Ind., could be extended to physicians everywhere, there would be an end to apprehension that the human race is deteriorating in size.

For Mayor Plessinger claims to be able to correct improper growth of children while in infancy, and his assertion is backed by many years of successful practice. His method is simply to measure them with a string, according to a system handed down in German folk-lore, and possessed by few persons. Notwithstanding the superstitious nature of this "rite of measurement," many physicians have witnessed the working of the treatment, and, while they offer no solution, admit that it possesses some strange efficacy. At any rate, the practice bids fair to spread throughout the United States.

MAYOR PLESSINGER.

States, if Mayor Plessinger can be induced to part with the secret. Long or short growth among infants is not an uncommon complaint. One of the peculiar diseases that befall small humanity is a tendency, between the age of six weeks and two years, to either grow too fast or too slow. The more common of the two is "short" growth. The child seemingly ceases to grow, and, instead of waxing strong and hearty, dwindles into a puny and insignificant creature, for whom there seems nothing in view but the grave, and that possibly not far distant. It is at this point that some nurse or some old lady, who thinks she is versed in child lore, advises "measurement." In fact, it is the only efficacious remedy in such a critical crisis, say the old ladies. The child must be measured by a person who is endowed with the power to controvert the malign influence that overshadows it.

A common piece of twine is used, and the child is measured from head to foot. Then the string is wrapped in the hinge of the front door in such a fashion that it will wear as the door opens and shuts. Of course a mystical incantation goes with the ceremony. When the string is worn out the child begins growing long or short just as the nature of the case demands.

Mayor Plessinger says he has been gifted with the power of this mystical measurement since nineteen years of age. It is an old German custom, and the person who can apply the formula is greatly esteemed. The secret was imparted to the mayor by Mother Valentine, an old lady highly respected in Bluffton for her nursing ability and her knowledge of homely remedies. Feeling that she was unable to pursue her calling much longer, she summoned Mr. Plessinger, who was her favorite among the young men of the place, and made him her heir to the secret. By no means must the incantation be given to one of a sex similar to the possessor. It came from a woman, and the mayor has picked out the young lady to whom it will be given when he feels called upon to lay down his yoke of healing.

There are hundreds of people in Bluffton and over the country generally who believe in the treatment, and cases can be cited in Bluffton among men and women whom no one would suspect were ever cured by the string method. One of the city's leading society ladies was measured, not by the mayor, however, when a small child, immediately after the measurement she set up the first energetic cry of her existence, was given a slice of bread and butter, which she ate greedily, and grew rapidly out of her infirmity.

An incident worthy of note was that of an old man near the Huntington county line, who was bedfast. He was four and one-half inches longer than normal, but two weeks after the measurement was reduced until he was only one inch and one-half over the correct limit.

The reader must not imagine that because such belief exists in Bluffton that the city is a little backwoods village. It is the only city in Indiana outside of Indianapolis that has three miles of asphalt streets. It is a bustling town of 5,000 inhabitants, without a negro in its population. The only colored man who ever visited there walked out of town at an apid gait, with a crowd of men in pursuit and none other ever repeated the operation. It is a modern city, but many of its good citizens believe in the theory that children can be cured by the mayor's process, because it has been tried in their families and they know it.

Mrs. Ann M. Ingersoll is the name of the woman and Collins that of the man. The woman is not of the best reputation, and eight years ago was in an insane asylum. They abducted the boy while on their way from California to Painesville.

## Motor Blocking Cycle Trust.

New York, March 22.—The hitch that is delaying the proceedings for the formation of a great bicycle manufacturing trust is said on good authority to be due to the fact that one of the largest concerns has a motor-carriage plant, and the terms upon which it shall be absorbed or operated cannot be agreed upon. The capital for the trust will be furnished, it is said, by the Mercantile Trust company of this city. It is reported to be railroad funds, of which there happens to be \$100,000,000 awaiting investment.

## Not Favoring Mrs. Maybrick.

Washington, March 22.—So far as can be ascertained here there is no truth in the report from London to the effect that six members of the United States Supreme court had sent a memorial to the queen through the home secretary praying for the release of Mrs. Maybrick. While some or all of the members of the United States Supreme court may entertain views of the case in sympathy with the imprisoned woman, it may safely be said that none of them has subscribed to a petition for her release.

**WINE OF CARDUI**

THE LINK THAT BINDS.

JACKSON, TENN., Nov. 23.

I was subject to miscarriage for three years, and suffered constantly with backache. I wrote to you for advice, and after using three bottles of Wine of Cardui, according to your directions, I am strong and well, and the mother of a fine girl baby.

Mrs. E. N. JOWERS.

**Wine of Cardui**

There is no use talking—a baby in the house is the link that binds husband and wife together. Nothing is sadder than fruitless wedlock. The prattling and cooing of the little ones offset a thousand times the occasional worries and trials of life. When a wife is barren, there is a derangement somewhere in the genital organs, caused by one or more of those common disorders known as "female troubles." Wine of Cardui is the remedy. It puts the organs of generation in a strong and healthy condition, fitting the wife for the sacred duty of reproducing her kind. During the period of gestation the entire system of the expectant mother is built up to withstand the ordeal of labor, and when the little one makes its advent it is lusty and strong, well-fitted to grow to maturity in perfect health. The mother, too, passes through the trial with little pain and no dread. Wine of Cardui is truly a wonderful medicine for women.

By order of ward committee, JAMES W. SCOTT, Chairman.

## THE DUTY OF VOTERS.

Many important municipal questions are likely to be raised during the next two years, and the republicans of the city should rally at the caucuses tonight and cause the nomination of capable men for all public offices. Janesville is growing, and the next two years will see many changes. The charter under which the municipal government has been conducted since "the big wind" is defective in many ways, and must be changed—the sooner the better—for Janesville is no longer a village. The question of a sewerage system is also much discussed, and the next two years may see the work begun. The building of a city hall is strongly advocated by many people, the street work system needs changing, and there are many other important moves that may have to be considered within the term of office of the men who are elected this spring. Remember these things when you go to the caucus tonight, and vote for the men that you think are best qualified to pass upon these important questions. Support men who take an interest in city affairs, and will be willing to give their offices the time necessary to good public service.

It matters not what the names of the various candidates may be. Select the men who have the qualifications and your duty as a patriotic citizen will have been well discharged.

## TARIFF IN INDIA.

A dispatch from Calcutta says that the legislative council adopted the countervailing sugar bill. The viceroy of India, Lord Curzon of Kedleston, expressed satisfaction at the unanimous feeling of the council on the subject. He said the fullest inquiries had shown the necessity of urgency in the case, and he commended the bounty system as being "a vicious expedient for selfish interest." Lord Curzon also asserted that the Indian government was only exercising its legitimate right in relieving the country and helping an important industry and a huge number of cultivators.

Two years ago Robert Lewis, of Atlanta, Georgia, built a gallows for the authorities. Last week he was convicted of murder, and was hanged upon the gibbet he had built. Thus is the wisdom of several old proverbs again shown.

Steven Bousal, the war correspondent, will find it up hill work to convince the American people that General Joe Wheeler was weighed and found wanting at Santiago. Wheeler simply denies Bousal's statements, and the incident is closed.

An American firm has been awarded the contract to build an iron bridge 1,100 feet long in the Sudan country, for the British government. Several English firms put in bids, but the American firm beat them all.

William J. Bryan is so confirmed in the anti-plutocrat habit that he has refused an invitation to attend a banquet given by that celebrated democratic plutocrat, Hon. Perry Belmont.

In nominating ward officers and electing delegates to the city convention this evening, bear in mind that the best men in the city are none too good to serve the people of Janesville.

There should be no need of quibbling over the anti pass bill. The people favor legislation that will abate the evil, and the legislature cannot make the law too sweeping.

Osborne Wallace Cochrane abandoned the editorial sanctum yesterday. He denies the report that he was soon to cross the ocean and take charge of the London Times.

The annual battle of the people of Chicago, backed by the city press, against the Hon. Hinky Dink, the Hon. Bathhouse, and the Hon. Johnnypowers is now on.

There are eighty distinct tribes of natives in the Philippines—most of which will soon be extinct if they do not harken to the voice of their Uncle Samuel.

The island of Luzon has the same area as the state of Ohio, but it will never equal the Buckeye state in the matter of office holders.

Two Fond du Lac men have returned from the Klondike, footsore and weary, and with less gold than they had before they started.

Election day comes on April 4, so the city campaign will only be of about ten days duration.

The people of Trenton, Kentucky, have voted in favor of prohibition.

## THE TWILIGHT CLUB ON TOWN TOPICS

### LAST BUSINESS MEETING FOR SEASON LAST NIGHT.

The Subject for Discussion Last Evening Was "Municipal Needs"—Damage Suits, Schools, Street Contracts. More Wards, Sewerage Ably Discussed—Banquet Committee Named.

Municipal affairs occupied the Twilight club's attention last evening. J. C. Wilmarth was the leader and the first speaker was City Attorney F. C. Burpee who pointed out that the city was now working under four different charters, the special, uniform charter, statutes affecting cities working under special charters, and statutes affecting cities working under uniform charters. Attorney Burpee saw many objections to a uniform charter, but said that the present condition of things was costly, cumbersome and inconvenient.

George G. Sutherland said the main objection to the uniform charter was the number of offices created. Wm. Smith suggested a skeleton charter that gave the city the right to regulate its own affairs.

T. S. Nolan discussed "Sidewalk Abuse." He thought that Janesville had never been asked to pay any personal injury verdict that was not just. He hoped that no change would be made in the personal injury statute but hoped that the city would enforce its laws more strictly. Mr. Nolan pointed out that under the present system the street commissioner is elected by the people and he depends on them for his position. He employs men who do not earn their wages, paying them \$1.50 and some only earn 50 cents. He is obliged to do this to get their votes to hold his job. The common council gives orders to have walks laid or repaired. He only serves the papers, and does not see that the work is done. He understood from a reliable source that he had sixty of such notices in his pocket that he had not enforced. Why don't he do it? He is afraid of losing votes. In front of the Wilcox property on Court street a city official and his wife both stumbled. The street commissioner had been ordered to serve the notice but had given it no further heed. A law had been passed at this session of the legislature electing the street commissioner by the council. It might be too late for this year but could be enforced next year. He only spoke as he did to show that the council was not to blame. He suggested that the council until they elect a street commissioner appoint a sidewalk inspector and make him responsible, and realize that his position depends upon his efficiency.

Mr. Burpee insisted that the damage law had been greatly abused hence the need for a change. From 1853 until 1890 the city paid \$500 in personal injury judgments. From 1890 to the present day the judgments aggregate \$25,000.

S. C. Burnham spoke on "Are More Wards Needed?" There is one supervisor in each ward and 37 members on the board. The population of the county is 50,000, one-fourth being in Janesville, and yet this city has but five members in the board out of 37. The value of Rock county is \$18,000,000. The value of Janesville, \$4,000,000. Its representation is far below what it should be and if increased would be a benefit, but said there were advantages and disadvantages.

Geo. G. Sutherland favored an increase in the county board. Real estate was increased for purposes of taxation and farming lands were not. As the aldermen got no salary a few more would be no detriment to the city government.

W. J. McIntyre was called on and said that in the board the matter of equalization was referred to a committee of three members from each assembly district, which includes usually two from Janesville. At the last equalization it was the balance of the county against Janesville and Beloit. Both were raised at that time. The valuation now was about right. Two things should be considered, population and valuation. An increase of members would do no good. He would cut down the number if anything.

Levi B. Carle, who was long a member of the board, said if the membership from Janesville and Beloit was increased they would lose \$10 in the distribution of funds to the poor where they saved \$1 on assessments, as the money would be used for political purposes.

F. L. Clemons talked on "The City Schools." He made a statement of the receipts and disbursements of the schools from July 1, 1897, to July 1, 1898. He also spoke on the condition of the schools, pointing out some defects and remedies for the same.

Victor P. Richardson talked on a \$25,000 street contract, or what he would do if the city placed \$25,000 in his hands to be spent on the streets.

City Engineer P. E. Brown spoke on "Sewerage Before Paving," showing that the sewerage should all be done before the streets are paved, to prevent damage from tearing up. The paper contained some excellent ideas.

A committee consisting of Stanley B. Smith, George G. Sutherland, Superintendent D. D. Mayne, Rev. R. C. Denison and George M. McKee was appointed to arrange for the annual banquet of the club.

## LOCAL BUTCHERS HAVE DECLARED WAR

### TWO SEPARATE BALLS WILL BE HELD THIS YEAR.

Trouble Has Again Broken Out In Their Ranks All Owing to a Social Controversy—Best Of Music Will Be On Hand And No Expense Will Be Spared.

War has been declared by the butchers of Janesville, and a fight is now on among themselves.

Business has nothing to do with the present trouble, it being purely a matter involving a social controversy.

In other words two butcher balls are to be held in Janesville next month and each faction is now carrying on the fight in real earnest, each endeavoring to bring about the most successful party from a financial and social standpoint.

At the Armory on the evening of April 5, will be given the sixth annual butcher's ball. Prof. Williams and wife of Whitewater, will lead the grand march and Prof. Smith's full orchestra of Janesville will play. Tickets 50 cents.

At the Armory on the evening of April 6, will be given the sixth annual Butcher's ball. Prof. Williams and wife of Whitewater, will lead the grand march and Prof. Tuller's full orchestra of Waukesha will play. Tickets 75 cents. That is how the present controversy may be summed up.

What was thought to be peace and happiness among the Janesville butchers has changed to war and the hard fought battle of three years ago promises to be surpassed by the present encounter.

Last month, several of the east and west side butchers got together and decided to hold the sixth annual ball at the Armory on the evening of Thursday, April 6.

At this meeting it was thought that the arrangements made were satisfactory to all the local butchers and their employes.

Last Sunday, a number of the west side butchers and their employes held a meeting at the William Murray shop on West Milwaukee street.

The meeting was well attended and after selecting a chairman, the assembled butchers were not slow in telling what they thought of the different ones who had met last month and decided on giving a ball on the evening of April 6.

One butcher stated that ex-Alderman C. H. Kueck and August F. Krueger were trying to be the "whole thing" and that they did not propose to give the others their say in the matter of how the party should be conducted.

Another jumped to his feet and said that he did not favor hiring an outside orchestra as had been done in the securing of Tuller's orchestra of Waukesha. Several others had their say in the matter and when it came time to adjourn a unanimous vote favored the withdrawal of those present from the original ranks for the purpose of giving a party of their own.

A committee was then appointed to hire Prof. Smith's full orchestra and the Armory.

They decided on the date of April 5, one evening in advance of the other faction. The following floor committee was also appointed:

T. A. Murray, J. Keenan, R. Courtney, D. Conley and Thomas Riley.

For the function slated for the evening of April 6, Prof. Tuller's celebrated orchestra, of Waukesha, has been engaged.

Throughout the city the different committees are now hard at work endeavoring to make their favored party the "only and original."

Letters addressed to the following named persons, remained uncollected in the Janesville postoffice during the past week ending March 22, 1899:

## TOBACCO BUYING CONTINUES ACTIVE

### HEAVY SHIPMENT FROM ED- GERTON IS MADE.

Soverhill & Porter, of This City, Dis- pose of One Hundred and Seventy-five Cases—Charles L. Culton, of Edgerton, Sells Large Consignment to Eastern Parties.

A good deal of tobacco is yet being sold in the growing districts, where buyers are still riding for the scattering remnants of the crop and paying prices fully up to previous quotations. If the present activity keeps up it is a matter of but a few weeks at most when the rest of the crop will be gathered in. The warehouses at the packing centers are still busy receiving and handling the tobacco with the prospects of several weeks' work in sight.

There is an improved business with local dealers in old leaf and an active inquiry has developed for grades suitable for present manufacturing. Jobbers are especially delighted over the news received from Washington that the internal revenue commissioner has receded from his "broken package" decision, which practically destroyed the retail trade for less than case lots. G. L. Culton, of Edgerton, reports the sale of 560 cases of 97 and Soverhill & Porter, of Janesville, of 175 cases of '95-'97 goods.

The shipments out of storage reach 1,100 cases, twenty-two carloads from Edgerton to all points for the week. During the same period thirty-three carloads of new leaf were received from outlying points for handling in the Edgerton market. Another big shipment of 1,000 cases is being prepared for forwarding.

## THE NEW CONGRESSMAN FROM JERSEY.

He Was Reared Amid Environments That Insure His Support of the Present Administration—He Is a National Banker.

Senator-elect John Kean of New Jersey is only 47 years of age. He is in the full vigor of his intellectual prime. He was born at Ursino, N. J., Dec. 4, 1852, in the old home place erected by Gov. Livingston before the time of the American revolution. Graduating from Columbia law school in 1875, he was two years later admitted to the bar of New Jersey. Within ten years from that time he took his seat in the lower branch of congress, where he remained through two sessions, making himself strongly felt in the discussions of national matters. In 1892 he was the republican candidate for governor of New Jersey, but he was defeated at the polls. Many positions of honor have been conferred upon him by his fellow-citizens, and in each one he has sustained himself with splendid credit. Mr. Kean is one

## A HUNDRED REASONS

Can be given why Stuart's Dyspepsia Tablets are the best and most effectual cure for every form of indigestion.

They are in tablet form, which retains their good qualities indefinitely, while liquid preparations become stale and useless with age.

They are convenient, can be carried in the pocket and taken when needed. They are pleasant to take.

After each meal dissolve one or two of them in the mouth, and, mingling with the food, they constitute a perfect digestive, absolutely safe for the most sensitive stomach.

They digest the food before it has time to ferment, thus preventing the formation of gas and keeping the food pure and free from the poisonous products of fermentation, half digested food.

Stuart's Dyspepsia Tablets is the only remedy designed especially for the cure of stomach troubles and nothing else.

One disease, one remedy; the successful physician of today is the specialist, the successful medicine is the medicine prepared especially for one disease.

Stuart's Dyspepsia Tablets make the complexion clear by keeping the blood pure.

They increase flesh by digesting flesh forming foods.

A whole package taken at one time would hurt one, but would simply be a waste of good material.

Over six thousand men and women in the state of Michigan alone, have been cured of indigestion and dyspepsia by the use of Stuart's Dyspepsia Tablets.

Sold at all druggists at 50 cents per package.

## FIRST STEP IN VOCAL CULTURE

Keeping the Mouth Shut When Asleep or Awake.

"Proper breathing is so essential in voice production, and the first requirement is to keep the mouth shut," writes Catharine E. Junkermann in the Woman's Home Companion in the first article of the series, The Cultivation of the Speaking Voice. "Of course, no tone can be either strong or pure if the lungs are cramped so that the air cannot find room. In order to increase the size of the lung cavity, raise the chest and keep the body well and strongly poised. So much harm has been done to voices by allowing the mouth to become the regular air passage that the need of care cannot be too frequently emphasized. Besides the injury done by the unwarmed air entering the lungs, the mucous membrane is hardened by the saliva being dried up, and the muscles of the tongue and throat grow stiff and less responsive. It is comparatively easy to control one's breathing when awake, but when asleep the harm goes on. To remedy this involves a slight discomfort, but one can endure it patiently, looking to the end. Cut court-plaster into little strips about one-fourth of an inch in width, and paste several across the lips, placing them up and down, with the lips held naturally. If one is tempted to give up rather than to endure the discomfort this method involves, a walk through the ordinary day each, or a night made hideous by the presence of a snorer in a near berth, will cause a solemn vow to be taken never to do likewise."

## ILLINOIS LEGISLATURE.

## House Passes Bill to Prohibit Spread of San Jose Scale.

Springfield, Ill., March 22.—Following is the gist of the routine doings in the legislature Tuesday:

The house passed without emergency clause the senate bill to prevent spread of San Jose scale. Sent to third reading bill providing for election of members of board of agriculture by popular vote after adopting amendments requiring election by congressional districts and publication of financial statements in board's biennial reports. Passed senate municipal pawnshop bill by vote of 86 to 21. Sent truant school bill to third reading. Advanced juvenile court bill to second reading.

The senate concurred in the house amendments to resolution for appointment of commission to revise laws regarding practice of courts of record. By vote of 27 to 17 tabled resolution by Mr. Davidson ordering publication of pay rolls of state university. Killed Humphrey bill to abolish two-mile saloon limit in counties of over 125,000, vote being 15 to 13, and motion to reconsider being postponed to March 29. Sent to third reading Templeton bill to require teaching of agricultural science in common schools. Killed bill giving Illinois and Michigan canal commissioners power to condemn land.

Among the bills introduced in the senate were the following: By Mr. Case, to enable park commissioners having control of parks bordering on public waters to enlarge and connect same by extension over bed of such waters; by Mr. Milchrist, to exempt charitable bequests from provisions of inheritance tax law.

## BRITAIN AND FRANCE AGREE.

## Convention Signed Delimiting Their Central African Territories.

Paris, March 22.—The negotiations between Lord Salisbury, the British prime minister, and M. Cambon, the French ambassador to Great Britain, for the delimitation of the French and British spheres of influence in Central Africa have resulted in an arrangement which was signed in London yesterday. Great Britain, by the principle of the agreement, will retain Bahr El Ghazal and Darfur, while France will have Wadal Bagirmi, Kanem, and, broadly speaking, the territory to the eastward and northward of Lake Tchad, between the Nile and Lake Tchad, and between the fifth and fifteenth parallels of latitude.

The signatories mutually concede equality of treatment in commercial matters. France is thus empowered to maintain commercial establishments on the Nile and its tributaries. Each country undertakes to abstain from exercising political or territorial rights beyond the frontiers of its own sphere.

## German Interests Guarded.

Berlin, March 22.—In the reichstag today Herr Richter, the German radical leader, asked the government for information on the subject of the negotiations progressing with Cecil Rhodes. The minister of foreign affairs, Baron von Buelow, said the negotiations for a railroad through German East Africa were still in progress, but an agreement had been reached regarding the laying of a telegraph line through the East African protectorate, in which the rights and supremacy of German interests were fully safeguarded. The line, he continued, will be constructed at the telegraph company's expense, and will be completed within five years.

As the season of the year when pneumonia, la grippe, sore throat, coughs, colds, catarrh, bronchitis and lung troubles are to be guarded against, nothing "is a fine substitute," will "answer the purpose," or is "just as good" as One Minute Cough Cure. That is the one infallible remedy for all lung, throat or bronchial troubles. In suit vigorously upon having it if "something else" is offered you. The People's Drug Co.

John.—If you were a woman, you'd know as I know, and all other women know, that Rocky Mountain tea is the greatest blessing women ever had.

## Bulley Would Be a Senator.

Guineville, Tex., March 22.—It is decisively announced on authority of himself that Congressman Joseph W. Bulley, democratic leader in the late congress, will be a candidate for United States senator to succeed Mr. Chilton, whose term expires March 4, 1901.

from far off Arabia

and from the choicest fields in that coffee-famed country comes

"T & T Coffee"

It is roasted by an expert who develops just enough caffeine oil to give it a perfect aroma and make it easily digested.

The choicest beans, perfectly blended, are packed in sealed 2lb cans to be ground as used, so that its aroma cannot escape as in the case of coffee ground at the store, exposed to the air before using, and constantly gathering dirt.

These are some of the reasons why T & T Brand is

"the finest Coffee in the World."

Tell your grocer "T & T Coffee or no coffee at all" and he will get it for you if not in stock.

## Porter for Secretary of War.

Paris, March 22.—Gen. Horace Porter, United States ambassador at Paris, declines to discuss the question of his rumored appointment to succeed Mr. Alger as secretary of war. ## MRS. PINKHAM TALKS ABOUT OVARITIS.

Letter from Mrs. Carrie F. Tremper that all Suffering Women Should Read.

Ovaritis or inflammation of the ovaries may result from sudden stopping of the monthly flow, from inflammation of the womb, and many other causes. The slightest indication of trouble with the ovaries should claim your instant attention. It will not cure itself, and a hospital operation with all its terrors may easily result from neglect.

The fullest counsel on this subject can be secured without cost by writing to Mrs. Pinkham, at Lynn, Mass., and asking for her advice. Your letter will be confidential and seen by women only.

Mrs. Carrie F. Tremper, Lake, Ind., whose letter we print, is only one of many that have been cured of ovarian troubles by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I was suffering from congestion of the ovaries, misplacement of the womb, irregular, scanty, and painful menstruation, also kidney trouble. I had let it go on until I could not sit up, and could not straighten my left leg. My physician gave me relief, but failed to cure me. Reading the testimonials of different women, telling what Lydia E. Pinkham's Vegetable Compound had done for them, I decided to give it a trial. I had almost given up hopes, as I had suffered

untold agony. The first dose helped me. And now, after using eight bottles of Vegetable Compound, one bottle of Blood Purifier, one box of Liver Pills, I am proud to say I am as well as I ever was. I might have saved a large doctor's bill and much suffering, had I tried your precious medicine in the beginning of my sickness. All in the village know I was not expected to live, when I had the first and second attacks. In fact, I had no hope until I began taking your Vegetable Compound. It has saved my life."

## LATE NEWS BY TELEGRAPH.

## PERISH IN FIRE AT OMAHA.

Women Forced to Jump Out of High Windows.

## FLAMES BARRED THE STAIRS.

Two Dead, Three Dying and Fifteen Seriously Hurt—Mother Takes Terrible Risk to Save Her Child—Property Loss Inconsiderable, Covered by Insurance.

Omaha, March 22.—A gasoline stove explosion under a stairway started a fire in the three-story Pattison block, Seventeenth and Douglas streets, Tuesday afternoon that killed two persons, severely injured a score of others and reduced the building to ruins.

With three exceptions, all the victims of the fire were members of the ladies' boards of the Knights of Macabees and Royal Neighbors. Twenty-two of them were engaged in lodge work in a hall in the third story when the explosion occurred. Not one escaped without injuries more or less severe. All were compelled either to run the gantlet of flame in the stairway leading out of the lodgeroom or to jump from the windows to the street. There was a fire escape at the back of the lodge hall, but only one woman, Mrs. Brosier, had enough presence of mind to use it, and she, probably fainting, lost her grasp and fell from near the top to the pavement.

The dead: SAMUELSON, MRS. A. L. TAYLOR, MRS. THOMAS.

The injured:

Lieut. James Adams, injured about hips by falling downstairs; Mrs. S. E. Allen, face and hands burned, cut by glass; Mrs. C. F. Brosius, face and hands burned; Mrs. French, South Omaha, face and hands burned; William Guider, fireman, internal injuries, will probably die; Mrs. J. C. Holt, face and hands burned; Marguerite Holt, injured internally, may die; Mrs. Mary Hopkins, face and head badly burned; Mrs. A. King, face badly burned; Mrs. W. A. Rex, hands and face severely burned; May Samuelson, 5 years old, burned on hands and face; Mrs. Mary Sullivan, hands and face severely burned; Mrs. Edward Schiner, face, body and hands burned, bad cut on head, will probably die; Mrs. A. A. Smith, face and hands badly burned, injuries probably fatal; Walter Scott, hands and face severely burned; Mrs. Thomas Thornton, face and hands burned severely; unknown man, badly burned on hands and face; Mrs. G. D. Wilson, face, hands and shoulders burned; Steve Williams, 5 years old, face and hands burned.

Mrs. J. C. Holt, who was in the lodgeroom when the fire started, came down the blazing stairway, but in the struggle was parted from her 6-year-old daughter. As she reached the pavement in safety she discovered that the child was not with her. Though her flesh was still burning from her terrible trip through the flames, she dashed back into the furnace, went to the third floor again and brought her child down in safety. Both were terribly burned.

Mrs. Susie Allen appeared at a window with the flames licking her face. She sat on the sill and carefully surveyed the situation. Some screamed to her to leap, while others wildly waved her back, saying the firemen would soon arrive. Mrs. Allen leaned far out of the window to save her face, and the same time she encouraged her imprisoned sisters to hold to their perilous positions in the windows until rescuers arrived. Finally she could stand it no longer and motioned to the crowd below that she was about to jump. She carefully wrapped her skirts around her and leaped far out from the building. Her body turned over a number of times and her head struck the stone flagging.

Mrs. Taylor clung to a window until life was almost extinct, and when her body was picked up from the pavement little remained but charred flesh.

The screams of the women as they rushed to the windows and found themselves imprisoned brought great crowds to the scene from all parts of the crowded streets. Ten thousand people surrounded the building when the firemen arrived and impeded their work.

The damage to property is \$70,000, covered by insurance. One lodge of the A. O. U. W., two lodges of Red Men, two lodges of Degree of Honor, and several others lost regalia and various items of furniture.

Bargain seekers should not fail to visit the dining rooms of The Mrs. Clark Co., 151 153 Wabash Ave., Chicago, which is the very center of the shopping district. This restaurant has the finest cuisine and service in the city and the prices are moderate.

The restaurant on the 7th floor of the Association building in La Salle street is also run by this company and is equally inviting and attractive.

## Chicago Live Stock Market.

Chicago, March 21.—Only moderate Tuesday receipts were here today and such found quite ready outlet at prices close to the level of Monday's sales. Some choice clipped and fancy woolled lambs sold 10c higher and fat sheep at a slight advance, but the bulk of cattle and hogs went at prices identical with values for such offerings the day before. Today's receipts were 2,500 cattle, 21,000 hogs and 12,000 sheep. Most of the cattle and sheep found sale in short order and late trade in hogs was much firmer than the day before, some prime heavy landing as high as \$3.92½, top price thus far this week.

## WON'T LEAVE THE SERVICE

Volunteers Anxious to Finish Philippine Campaign.

## REVOLT MUST BE CRUSHED.

California and Oregon Soldiers Place the Needs of the Country Before Their Lives or Comfort—Regular Troops to Be Sent to the Front.

Washington, March 22.—The war department is surprised and gratified to learn that the volunteers in the Philippines do not want to leave the service until Aguinaldo's insurrection is crushed and American authority fully established in the archipelago. It had been decided to bring the volunteers home in the order in which the regiments reached Manila. But the California and Oregon soldiers, who were the first to land in the Philippines, do not want to leave as long as American control is in doubt, and the services of American soldiers are needed. As long as they decline to depart, no other volunteer organizations will elect to return.

It is understood, however, that the regulars destined for service in the Philippines will be forwarded without waiting for the volunteers to return. The more effective troops Gen. Otis has the quicker he can restore peace and order in the island of Luzon, and when that is accomplished it is believed that resistance elsewhere in the archipelago will collapse.

Rev. E. Edwards, pastor of the English Baptist church at Minersville, Pa., when suffering with rheumatism was advised to try Chamberlain's Pain Balm. He says: "A few applications of this liniment proved of great service to me. It subdued the inflammation and relieved the pain. Should any sufferer profit by giving Pain Balm a trial it will please me." For sale by People's Drug Co.

## Cuban Assembly May Dissolve.

Havana, March 22.—The Cuban assembly will probably pass a resolution for the disbanding of the army, and by the same act dissolve itself. This will be done without reference to the payment of \$3,000,000 or any other amount. A motion to this effect was offered at the meeting Tuesday, but action on the matter was postponed until Saturday. A canvass of the meeting disclosed the fact that two-thirds of the deputies were in favor of the immediate disbandment of the army and the dissolution of the assembly.

Mr. C. A. Storer, Virginia Pharmacy, Chicago, writes: "Orangeine" has a place equalled only by some of the oldest remedies.

## Three Men Hurt.

Seattle, Wash., March 22.—A boiler under the basement of a saloon here exploded last night. Five men who were passing were blown forty feet in the air, and three will probably die.

## WE ARE PUSHING GOOD FLOUR.

For some time past we have been selling the two best Flours millers could  
produce at \$1.00 per sack; against an advancing market most of the time.

Still we have kept the price down to a bargain figure. We have sold and  
are selling immense quantities of Flour, not only because the price is low, but also  
because these two Flour brands are of such goodness.

**Washburn-Crosby Co.'s  
Gold Medal at \$1**  
has but few equals; no better.

**Jennison Bros'  
'Very Best', at \$1,**  
is a Flour that has never re-  
ceived anything but praise  
from its users.

**Jennison Bros'.  
Hard-to-Beat, 95c,**  
is thought by many to equal  
many so-called "best patents".

We can not say how long we will continue present prices. We bought  
several carloads at just the right time; and such a thing is possible that the market  
may advance strongly. In that case our prices will advance. Keep your Flour  
well cared for now while the price is in your favor.
